Very well thought through, with interesting and relevant discussion and content. Clear time management has been applied to the summative.
Use of relevant sources (10%)	Excellent	Excellent use of relevant resources, with regular citation and a supporting list of references. There is oral as well as written citation, which is excellent academic practice. A very focused use of research.
Criticality (25%)	Excellent	An excellent developing critical writing style. There is lots of comparison and discussion and debate is taking place and so continue to build on this aspect for future summative. Good, effective and authentic links regarding theory and practice.
Structure and Presentation (10%)	Excellent	Excellent structure and presentation regarding the summative. I would just try to use a little less text on some of the presentation slides, but the actual layout and cohesion of the presentation was completed to an excellent standard.
Presentation and Communication Skills (30%)	Excellent	Clear, well-paced, well thought through presentation and communication which has been clearly rehearsed. One comment, just be mindful regarding where the audio is 'cut' and ensure that the end of the audio isn't clipped prematurely. Other than that there is a clear professional tone to the presentation.
