

# SWOT Analysis

## Strengths

Reasoning- Deductive, Inductive and Abductive

Analytical mind- I tend to focus on strategies and analyses which determine my progress. Logic and structural thinking are my forte

Research skills- strongly accomplished as evidenced by a BDS and MPH degree

Technical Abilities- Healthcare and Computer Science

## Opportunities

Leadership- predicated on achieving conflict resolution and teamwork

Innovation- Using my unique skillset and strong educational background, there is a great opportunity to create something amazing

## Weaknesses

Communication- I am still extremely afraid of public speaking, this is an area in which I desperately need to improve

Conflict Resolution- I tend to shy away from conflict, therefore, I need to be able to approach a conflict situation and take charge. The issue stems from my weakness in communication and public speaking fears.

## Threats

Creativity- I need to expand my horizons. Currently, I focus too much on data and subsequent analysis. I need to incorporate my analytical thinking with a bit of creativity.
